

Dear, Mr. Toplitt
Discus Awards Program Coordinator

2/24/10

Enclosed is the article that featured me winning the Discus Award for my overall scholastic and community achievement. I found it in the Northland Neighbors section of our town's Ledger Enquirer.

I must absolutely thank you, because I realize that the Discus Awards are certainly prestigious, but I had no idea the recognition that would come along with it since it is still relatively new.

After the article was published, I was hard-pressed to go too far along without someone in my community or school congratulating me and/or asking, "Why were you in the newspaper?" Even my principal told me that members of my high school's alumni association saw the newspaper and wished to have me speak at their next meeting, which would be a most rewarding opportunity☺ I will definitely log this in my resume as an important achievement and THANK YOU again.

Sincerely,

Julian Plowden
Discus Award Winner
